TWO DIVERS JUST CALLED AND NOW STATE IMPOSSIBLE FOR THEM TO GO DOWN BEYOND 140FT WITHOUT HAVING NAVY ASR (AUXILLARY SUBMARINE RESCUE) SHIP WHICH HAS DECOMPRESSION UNIT ON BOARD. THEY INDICATE READY TO LEAVE AS THEY CANNOT DO MUCH MORE WITHOUT SUCH EQUIPMENT. THEIR STORY COMES RATHER LATE AND FEEL WE SHOULD PUT HALT TO ADDITIONAL PERSONNEL AND SHADOW GRAPH EQUIPMENT ARRIVING HERE. I HAVE ASKED THAT THEY MEET ME AT OFFICE IN ORDER TO GET COMPLETE STORY. THEY SHOULD BE HERE BY 9:15 TONIGHT AND INTEND BRAINPICKING SESSION TO DETERMINE WHERE DISCREPENCY EXISTS REGARDS DIVING 200-250 FT VS PRESENT CLAIM OF 140 WITHOUT AVAILABLE DECOMPRESSION UNIT. I WILL PREPARE CABLE TO [REDACTED] AND INFO YOU AFTER SESSION. SEND ME A NOTE ON ANY VIEWS YOU MAY HAVE.

25X1A

DIVERS ALSO INDICATE OBJECT PREVIOUSLY SEEN IN WATER FOUND TO BE ROCK.

25X1A

THIS NOTE ALSO BEING SENT TO [REDACTED].
